(b) Provide a brief summary of the corporate governance policy that the Board of Directors has adopted. Please emphasize the policy/ies relative to the treatment of all shareholders, respect for the rights of minority shareholders and of other stakeholders, disclosure duties, and board responsibilities.

Section 3 of the Company's Revised Manual on Corporate Governance (revised as of July 2014) (the "Manual") provides:

"The Board of Directors and Management, employees and shareholders, believe that corporate governance is a necessary component of what constitutes sound strategic business management and will therefore

undertake every effort necessary to create awareness within the organization as soon as possible.

All doubts or questions that may arise in the interpretation or application of this Manual shall be resolved in favor of promoting transparency, accountability and fairness to the stockholders and investors of the Corporation."

Pursuant to the foregoing, Section 4.2.1.7 of the Manual mandates the Board of Directors to, among others "formulate and implement policies and procedures that would ensure the integrity and transparency of related party transactions between and among the Corporation, subsidiaries, affiliates, major stockholders, officers and directors, including their spouses, children and dependent siblings and parents and of interlocking director relationships by members of the Board" and "establish and maintain an investor relations program that will keep the stockholders informed of important developments in the Corporation."

In line with the policy on transparency, Section 7.2 of the Manual states:

"The essence of corporate governance is transparency. The more transparent the internal workings of the Corporation are, the more difficult it will be for Management and dominant stockholders to mismanage the Corporation or misappropriate its assets.

All material information, i.e., anything that could potentially adversely affect the viability of the Corporation or interests of the stockholders shall be publicly disclosed. Such information shall include earnings results, acquisition or disposal of assets, board changes, related party transactions, shareholdings of directors and changes to ownership."

Further, Section 4.2.1.8 of the Manual mandates directors to immediately disclose an actual or potential conflict of interest and to refrain from the decision-making process thereon.

The Manual likewise reflects the Corporation's policy of recognizing and respecting the rights of its minority shareholders, as it provides for cumulative voting, power of inspection of corporate books and records, the right to periodic reports, dividends, and the right of appraisal. In addition, Section 8.1.8 of the Manual states:

"Although all stockholders should be treated equally or without discrimination, the Board should, as far as practicable, give minority stockholders the right to propose the holding of meetings and the items for discussion in the agenda that relate directly to the business of the Corporation. The Board shall determine which matters are proper for inclusion in the agenda for stockholders' meetings."

(c) How often does the Board review and approve the vision and mission?

The Board reviews and approves the Corporation's vision and mission as may be necessary in response to the changing business environment. The Corporation's vision and mission was last reviewed in 2010.
