## Missionaries of Charity

Last May 2018, Tutuban Center has partnered with Missionaries of Charity, Home of Joy for the Sick Children located along Tayuman Street, Tondo, Manila.

Home of Joy for the Sick Children caters mainly to children in need of special medical attention. Various kinds of medicine intended to relieve, if not cure the sick, were donated by Tutuban Center to the facility.

Aside from medical support, Tutuban Center also provided home appliances such as electric fans and kitchen blenders/osteriers that will be useful in going about the children's daily life activities.

## Donations Given to Barangays

As it is enclosed by a number of barangays, Tutuban Center continuously facilitates its distribution of free school supplies to the residents of the barangays surrounding it. With this simple act of donating to out-of-school youths, Tutuban Center was able to support its neighboring communities.

In addition, chairs, tables, as well as collared shirts serving as Barangay Tanod uniforms were donated primarily for the installation of the barangay's temporary police outpost. This setup intended to support the barangay's duty to obliterate, clear, and clean all kinds of obstruction which were particularly caused by the illegal disposals of garbage in the area. Also, illegal vendor installations were organized and tricycle and trisikad terminals were re-established in areas along Dagupan Street which were previously affecting the flow of traffic on zones near Tutuban Center.

## Community Clean-Up Drive

SouthPark, in partnership with the local barangay, continuously extends its assistance to the community and seeks to promote cleanliness through its clean-up drives.
